

Mr. Andrew Herrera:

Please consider this letter as a testament towards my appreciation in your handling of the sale of my parents' estate property.

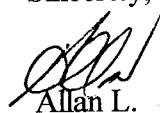

Settling a parent's estate can be all encompassing. Your handling of their property in Forest Hill went as effortlessly as could be expected in a Real Estate transaction.

I have to admit I was apprehensive at the start, however your professionalism in the Real Estate arena came to the top.

All facets of the program from the opening market analyses, to an accurate listing price, print media, open house, and all the behind the scene details were handled flawlessly.

I can truly say it was a pleasure to have been able to work together with you.

Sincerely,

Allan L.
